## About Us

Established on 1st July 1996, Chishtiya Poultry Services began with the manufacturing of poultry equipment such as Gas Operated Brooders for brooding old chicks in various poultry farms. Our company is considered as the very first manufacture of gas operated brooders in India. In addition to brooders, we are engaged in the production of flame guns for disinfecting cages and farm, pressure control units for maintaining proper pressure from gas cylinder as well as auto control units for automating brooding system.

Our company is flourishing in the market with the most exclusive and durable range of equipments to fulfill the expectations and requirements of customers. With the latest production techniques and well-developed warehousing facility, our company is able to attract clients from all over the world. Further, our dexterous and well-motivated employees support us in accomplishing organizational goals efficiently.
